

Purpose of fence: boundry paddock yard garden visual boundary other _____

PLANNING

- Decide on fencing system based on proposed use:
 - Homestead Permarod Bollards
 - Mesh Electric Wire/Tape
- Select post height/diameter from Product Factsheet
- Select rail length/diameter from Product Factsheet.
- Measure & draw buildings, trees and other boundary considerations.
- Measure & draw rough path of proposed fence line.
- Draw proposed gates & accessways.

CALCULATION

- Starting from one side of the gate post, calculate how many rails of each length, you will require for each leg of the run, until you get back to the other side of the gate you started at - number each rail on your drawing.
- Calculate how many corner, line, end, angle (Homestead only) and gate posts you will require - number each post on your drawing.
- Make a list of all the materials you will require, to take to the retailer when you place your order.
